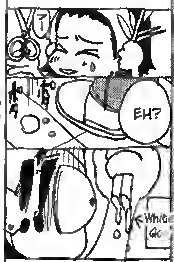
1/4 Space No 4

Cerbera 3

Eventually the overgrown cerbera couldn't stand on its own and tumbled down. I went back to the warning label. It said "The trunk grows rapidly. Please cut it to an appropriate height. Regular pruning also encourages new leaves."

I picked up scissors but it took courage to cut the trunk. After a few minutes of shilly-shallying, I snapped the trunk...



SFX. DRIP DRIP

...and discovered that cerbera was full of white resin.

End.
